Welcome to the MSDN forum!First of all, there is a similar thread for your as a reference:pdf to word document"Using iTextSharp read the pdf file.. Basically i want to convert Pdf into Doc in the same format as in source pdf All repliesYou can use Adobe Acrobat itself for this purpose.. What you suggested of Adobe Acrobat, if it is different of what i said then can you please provide me some sample code or link to that API from where i can download and use it.

- 1. convert
- 2. convert pdf to word
- 3. convert word to pdf online

Using Microsoft Open XML SDK you can create a word document(2007 format) out of the read information.. To be more precise, what i want is: Read pdf and create word doc with same layout, formatting structure as to that of the source pdf.

My application demands to convert pdf to word pro-grammatically so it's not possible to use any third party tool for conversion though i can use any third party API.. Is there any free or commercial API which i can use My application demands to read Pdf and modify the content but should preserve all formatting, layout, structure etc.. You may not get a direct answer for this issue, but you may be shed light on in this issue.. Also as what i got to know from Adobe forum is that they provide more support for Java Script rather than C# and other programming languages.. Meanwhile, you can submit a feedback to Microsoft to suggest add such API, etc:It will benefit us in the future. 773a7aa168 Clash Of Kings Game For Mac
